# Graphing Quadratic Function

Compute the function table. Draw the graph of each function.

1)  $f(x) = -x^2$

$x$	-3	-2	-1	0	1	2	3
$f(x)$							

2)  $f(x) = x^2 + 1$

$x$	-3	-2	-1	0	1	2	3
$f(x)$							

3)  $f(x) = 5x^2 + 5$

$x$	-3	-2	-1	0	1	2	3
$f(x)$							

4)  $f(x) = (x+1)^2$

$x$	-7	-5	-3	-1	1	3	5
$f(x)$
